

DESORAY[®] DA3105

Major component

- Waterborne Polyacrylic

Property

- Ultra fine particle size, excellent permeability and adhesion.
- Ideal full grain filling resin.
- It can significantly reduce the loose surface and has little effect on the feel of leather.
- It can also be used as primer resin to enhance the adhesion of the coating.

Specification

| | |
|-----------------------------------|------------------------------|
| Appearance(25°C): | Yellowish translucent liquid |
| Solid Content(%): | ~22.0 |
| pH(10.0% aqueous solution, 25°C): | ~8.0 |
| Ionicity: | Anionic |

Application

- It has ultra fine particle size, excellent permeability and adhesion. It can be widely used for all kinds of leather filling, especially for full grain. After filling the grain surface without conjunctival, natural appearance. It can significantly reduce the loose surface and has little effect on the feel of leather.
- **DESORAY DA3105** can also be used as primer resin to enhance the adhesion of the coating.

DESORAY[®] DA3105

Safety

- This is not a hazardous chemical.
- Observe all the precautions required for handling chemicals.
- Read attentively and observe all the recommendations in our **Material Safety Data Sheet**.

Transportation and Storage

- The product has a shelf life of at least one year if it is stored in its tightly sealed original packaging at temperatures between 5°C and 35°C.
- The product should be stored in a cool and dry place, with no throwing, avoid direct exposure to the sun or rain or humidity.
- Re-seal the package immediately after using, use up as soon as possible once the package is opened.
- Read attentively and observe all the recommendations in our **Material Safety Data Sheet**.
